Product Description

Marco loading dock is used on loading docks for the unloading and loading of vehicles.

Marco loading dock operates between the different levels of the vehicle and the loading dock.

It is designed for use in extremely difficult environmental and operational conditions and can also be provided for external use.

Marco loading dock are designed and equipped to withstand environmental and load stresses which frequently occur as point loads when vehicles cross the lift table.

All Marcolift standard lift tables are manufactured with high quality components to enhance reliability, durability and safety in operation.

Pump	Bucher	Motor	Hoyer Denmark, protection IP55
Control Panel	Marco standard control box	Sealing	Sweden, SKF
